

On Friday, May 20, 2011, the Committee filed a 24-hr Schedule E with respect to the May 24 special election in New York Congressional District 26. This report concerned anticipated telephone calls to the general public, and because this activity was to occur over the weekend, the Committee 's only opportunity to file a timely Schedule E was to do so on a preceding weekday. In fact, this activity did not occur over the weekend. Accordingly, that Schedule E filing should be disregarded entirely, and the information contained in it will not appear on the Committee's June Monthly Report.
