Re: RFAI on April Monthly Report (3/1/10 3/31/10)

For the period of time in question, this committee had no staff employees who spend more than 25% of their time on FEA or other activity in connection with a federal election. Instead, these individuals were spending their time on activities concerning state races. We also had not set up our Victory programs during this time period, so we did not have any Victory employees at that time.

However, the party monitors the activities of its employees very carefully with respect to this issue and will adjust their payroll status as necessary.
