

The TrueDem Leadership Fund has this date filed revisions to its reports for the July and October 2010 quarters as a result of a data input error discovered while preparing the Committee's Post General 2010 report.

Two contributions to candidates in May 2010 were mistakenly not reported when a data input error marked the recipients as ""Memo"" entries. The Committee has insured that the recipients reported receipt of the contributions correctly in their July Quarterly reports.

We regret the error and have taken measures to insure a re-occurrence cannot occur.

Sincerely,

TrueDem Leadership Fund
Steve Katich, Treasurer
