

Following the FEC's November 26, 2008 "Request for Additional Information" letter, ACE Group PAC Treasurer Karen Valanzano spoke with Christopher J. Morse, FEC Senior Campaign Analyst, regarding the correspondence. In that conversation, Mr. Morse indicated that after further review of ACE Group PAC filings he discovered an internal FEC database error caused the November 26th letter to be generated and there was no violation. Mr. Morse noted that due to the database error, ACE Group PAC did not need to respond to the November 26th letter.
