Due to an administrative error, the December, 2014 payroll contributions were recorded as being received on 12/15/15 and 12/31/15. Upon discovering this error, the contributions were re-entered to reflect the correct receipt dates of 12/15/14 and 12/31/14. This correction resulted in the amended 2014 year end report showing a significant increase in receipts for the period covered by the report.
