

In response to the RFAI dated June 6, 2008, the \$5000 contribution to Andy Harris for Congress made on 3/31/08 was intended for the candidate's 'primary debt-relief,' since the committee still incurred primary debt on 3/31 when the contribution was made. The contribution was inadvertently reported as a 'primary' contribution on the April monthly filing, without specifically designating it for 'debt-relief.' The filing has been amended to properly reflect the contribution as designated for 'primary debt-relief.' We have reached out to the campaign committee to inform them of the reporting error.
