Dear Ms. Timmie,  
As noted in our October Monthly report, the Committee underwent a comprehensive financial review in preparation for termination. The Committee brought on an outside compliance and financial firm to assist in completing this review, and a discrepancy totaling \$5,050.00 was found. To reconcile the Committee bank account with its FEC reports, a one-time COH adjustment has been entered onto Line 17 of Schedule A and a disgorgement of these funds to the United States Treasury has been reported as a disbursement on Line 29 of Schedule B. This discrepancy is from outside of the 3 year required recordkeeping period, and thus the one time COH adjustment was made in keeping with how these situations have been managed and accepted by the FEC with other Committees on record. The Federal Election Commission has been provided with all information the Committee has on record for this situation, and the committee intends to begin the termination process soon. Let us know if you have any further questions

Sincerely,

Tyler McBee  
Treasurer
