City	State	ZIP Code
WASHINGTON	DC	20004

This MISC-99 is issued in response to the Commissions May 5, 2021 letter to the Climate Reality Action Fund (CRAF), ID# C90017088, regarding receipts reported on CRAFs 2020 Year-End Form 5 report. As per the information provided below, CRAF disclosed all receipts that it was required to pursuant to applicable law.

52 U.S.C. 30104(c) requires the disclosure of each person who made a contribution to CRAF during the applicable reporting period, whose contribution(s) had an aggregate amount in excess of \$200 within the calendar year, itemized on Schedule 5-A. The Commission released guidance in October of 2018 in the wake of the order by the United States District Court for the District of Columbia in CREW v. FEC (Case No. 16-0259). According to that guidance, the Commission would be interpreting the requirements set forth in 52 U.S.C. 30104(c) to cover donors of over \$200 annually making contributions earmarked for political purposes, including those who contribute for the purpose of furthering an independent expenditure.

CRAF reported \$141,000 in itemized donations on its 2020 Year-End Form 5, pursuant to applicable law as interpreted by the Commission in its October 2018 guidance. No other contributions were made for political purposes to CRAF during the reporting period. As such, CRAF does not believe that it needs to make an amendment to its 2020 Year-End Form 5.

Please let us know if the Commission has any additional follow-up regarding this matter.
