Dear Ms Benitz:

The Illinois Republican Party (FEC ID# C00005926) is in receipt of your Request for Additional information dated October 13, 2010, regarding our September monthly report.

The receipts you reference are transfers to the Party from these campaign committees, and we are amending the report to reflect that notation.

The expenditure you reference was for the Party's activities at the Illinois State Fair. These were not voter registration activities, which are actually prohibited under State Fair regulations. This expense is correctly reported on line 21b.

A review of party activity in this timeframe determined that four disbursements made during the month of August (The Guardian on line 30b, and Smartech Corp, Brien Sheahan, and Aloha Document Services on Schedule H4) were inadvertently omitted. These transactions are now accurately reflected in this amended September monthly report.

The review also determined that two disbursement made in July (to Mack Communications) was inadvertently omitted. This transaction is now included on Schedule H4 of this amended August monthly report.

Sincerely:

Dave Syverson, Treasurer
Illinois Republican Party
