RE: Aetna Inc. Political Action Committee: Year-End Report (11/23/04-12/31/04)

This responds to the RFAI dated February 25, 2005: As reported, the accounting adjustment in the amount of \$2,415.00 disclosed on Line 29 of the Committee's 2004 Year-End Report was a result of a routine, independent audit of the Committee's account. The transaction(s) which resulted in the \$2,415.00 adjustment apparently occurred over 10 years ago. While the adjustment is likely the result of inadvertent bookkeeping errors made over ten years ago, at this point in time the Committee has no additional details regarding this matter.
