Dear Sir or Madam:

I represent the PHRMA Better Government Committee (the "Committee"). Enclosed please find the Year-End Report for the Committee for the period covering July 1 - December 31, 1997. (Attachment 1).

Also, enclosed are amendments to the 1997 Mid-Year Report. (Attachment 2). That Report is amended in two separate ways. First, please note that all receipts were itemized, even those totaling \$200 or less. An amended Detailed Summary Page which reflects the appropriate breakout of itemized and unitemized individual receipts is attached.

The second amendment pertains to the Itemized Disbursements pages. The Mid-Year Report erroneously noted that all disbursements were for the "general" election. The checks to the candidate committees were not designated as such, and we believe those checks were applied by the committees to the primary. We are contacting all candidate committees who received these checks to assure that the contributions were appropriately designated. Accordingly, the itemized disbursement entries are amended to properly note the contributions were for the "primary" election.

Please do not hesitate to contact me if you have additional questions regarding this matter.

Sincerely yours,

  
Timothy W. Jenkins
