The purpose of this memo is to explain the various allocative expenses in line 21 (a) that appears to have duplicates with negative non-federal amounts and zero total amounts. The current FECfile software allows in line 21 (a) under schedule H4 to report only one federal candidate and several non-federal candidates within the federal/non-federal breakout calculation for a direct candidate support expense identified through a unique identifier. However for our purposes, we have several direct candidate support allocable expenses that benefits several federal candidates at different percentages and only one non-federal candidate. Therefore, two entries were made for each expense. One is to record the total amount of the expense and a manual entry of one of the federal candidate's share. The federal candidate then will be referred to in line 24 or Schedule E. The other is to manually enter the second federal candidate but with a zero as the total amount. This is done so that the FECfile software will automatically create a negative number to correctly adjust the federal/non-federal share for each expense. For the most part our allocative percentage for our unique identifier events is 50/50%; though there is one that is at 66.67/33.33% (please see schedule H2 for details). This process of reporting was affirmed and recommended by our FEC reporting analyst, Rosa Lewis.
