Identification Number: 000005249

Reference: Amended September Monthly Report (08/01/04-08/31/04)

In your letter dated October 20, 2004 you requested additional information regarding the adjustment made between the original report and the amended report to the debt. The original report showed the debt amount on line 10 to be (\$18,727.39). The amended report shows the amount of \$29,996.97. The amended report is the correct report. August 31st is the fiscal year end for NAIFA. We sent the FEC report by the due date knowing we would have to send an amended report. Once the books were closed for PAC we immediately sent the amended report with the correct debt amount.
