

MISCELLANEOUS TEXT (FEC Form 99)

PAGE 1 / 1

This Committee files this Form 99 to supplement the Committee's 48 Hour Report of Independent Expenditures, filed 8/27/2015. The expenditures identified in the report are for nationally distributed communications that do not target any one state. This Committee refuses to file a report that inaccurately declares these expenditures as being for any one state, and instead reports them with respect to the Presidential Nominating Convention. This Committee is aware that the Commission would prefer committees in this situation to file false reports as if the expenditures are targeted to a specific state, as expected by the Commission in Advisory Opinion 2011-28. This Committee refuses to sully the public record with such absurd fabrication, and encourages the commission to issue better guidance than "please lie to us."
