This message is in regards to the Year End 2019 - Amendment 1 - Submitted on 7/2/2020. It will appear that there was a change/increase in activity, but it wasn't an increase in activity but a total change in activity (for the months of July, Aug, Sept and Oct), due to technical errors made by the person previously in charge of filing. They had uploaded data files from a different committee, which is why the numbers are so different. We have flushed out the incorrect data, and uploaded the proper expenses directly from the accountant. Due to this, the expense totals, and transaction ID's on the affected Schedule B's are different.

We are fixing/reconciling these reports so that everything aligns with the bank account perfectly, which is why the opening balance of the Year End 2019 report doesn't match the 2019 Midyear. We are amending backwards until we get all of the reports to line up perfectly. This will include an Amended Midyear 2019 report, and we will likely be amending most of 2018 as well.

We apologize for the confusion and mistakes. The person previously in charge of these FEC filings is no longer working on any part of the filing/reporting anymore.
