

This submission relates to four 48 Hour reports filed by the committee on April 3, 2006:

During the preparation of the committee's April Quarterly report, the committee discovered that it had inadvertently reversed the vendors on the payments on these four reports. Thus, payments disclosed to Zimmerman and Markman were actually made to Media Strategies and payments disclosed to Media Strategies were actually made to Zimmerman and Markman.

The committee's April Quarterly report filed this week will correctly reflect the proper vendors. Please note that the Commission's electronic filing software does not appear to support the amendment of Form 24. Therefore, it is our expectation that this submission will be sufficient to correct the public record. If the Commission would like the committee to file additional information to clarify this error, please contact our attorney, Neil Reiff, at (202) 479-1111.
