

In response to the FEC Notice dated 7/2/08 regarding the Florida Bankers Association Political Action Committee's April Monthly Report (3/1/08-3/31/08), the beginning cash balance of the April Monthly Report does not equal the ending balance on the March Monthly Report because the bank balance was changed to accurately reflect the amount on the Committee's books for the year. Up until then, the balance had been erroneously reported. We cannot identify where the error began, but can assure you that from April's report on, the cash on hand balance is reported correctly.
