

This is in response to a letter dated June 8, 2007 concerning the Amended Year End Report (7/1/05-12/31/05), received by the FEC on 7/14/06. The letter to the PAC's treasurer, Richard B. Nettler, asks for an explanation as to why Line 11(a) on the Amended Report discloses additional receipts that were not disclosed on the original report as filed. In essence, after the report was originally filed, the assistant treasurer became aware that receipts in the amount of \$15,000 were electronically wired into the PAC account on August 29, 2005 from the home office in Minneapolis, MN, whereas the treasurer and assistant treasurer, who had recently taken over responsibility for filing the appropriate reports with the FEC, were not made aware of such wire transfer until after the filing of the semi-annual report. When we became aware of the wire transfer, an amended report was filed with the Commission on July 14, 2006 to properly report the wire transfer and allocate it among the partnership. We apologize.
