Amendment to Amended October Quarterly Report 07/1/2002-9/30/2002

□

1. We are still correcting problems with our software. I packed our data which should have corrected the totals on the Detailed Summary Pages. Also, correcting the duplicate MEMO entries (item 4) will make the amounts balance out.

□

2. Packing also corrected the Line 8 cash on hand amounts.

□

3. Also corrected by packing the data. The amount on Line 11(a)(i) is the same amount when I add up each of these contributions by hand.

□

4. These duplicates were caused by a combination of incorrect data entry and software problems. This has been corrected.

□

5. Schedule A showed contributions from corporations which were incorrectly data entered into our federal report although they were deposited into our state bank account. This has been corrected.

□

6. Schedule H2 has been corrected to show GC02 as previously reported.
