I have been working with Eliza Greene because our FEC database was determined to be corrupted. We have lost all of our data for 2015 and will have to recreate the file. The oldest backup copy we had was from six months ago and Eliza determined that the copy was corrupt as well. The last time that she and I spoke about this issue was yesterday.

Today I received two letters, one dated 02/10/2016 and another dated 02/23/2016. One letter states that the 2015 return needs to be amended and the other letter indicates the 2015 return was never filed.

There is a response date of 03/16/2016 in the letter indicating that the 2015 return needs to be amended.

We will be working on recreating the 2015 data and submitting an amended report as requested. Please document that we have been responsive to this issue.

For any questions I can be reached at 240.566.1613.
