The committee has recieved a request for additional information from the Federal Election Commission. The committee has been requested to clarify its address and we have done that by checking the address-change box on the amended report.

The FEC has also noted that a Schedule H-1 was not submitted even though a Schedule H-4 was submiteed with the original report. Upon review of the report, Schedule H-4 should not have been completed and all expenditures should have been reported on line 21(b). The amended report also includes this change.
