RE: Amended September Monthly Report (8/1/03 - 8/31/03), received 4/20/04

In regards to your letter regarding our amended September 2003 report, we have submitted another amended report to clarify the following issues

- Re: POSTAGE expenditure of \$536- the postage purchase was for stamps for general office use and for non-FEA activity, and were not used for any federal electioneering communications and did not have any mention of any federal candidate.

- Expenditures with the description of "Consulting" and "Professional Fees" were for experts who provided general advice to the Party in internal meetings, and do not meet the definition of FEA, and therefore were correctly reported. A description clarification of "non-FEA activity" has been submitted with the amended report

- Expenditures with the description of "Reimbursement Expenses" were reimbursements for general office supplies and other non-FEA meeting expenses, and were therefore correctly reported. A description clarification of "non-FEA activity" has been submitted with the amended report
