

In response to the letter dated March 3, 2006- I would like to clarify certain expenditures from the 2005 Year -End Report. All expenditures referring to fundraisers were fundraisers only for Making Business Excel PAC and not a federal canfiate or another committee. Phrases such as: 'cost of fundraising expense', 'reimbursed fundraising expense', 'Photography Expense-Fundraiser', 'Expenses for fundraising event' all deal directly with Making Business Excel PAC fundraising. Also, all phrases dealing with commission or consulting fees deals with the fundraising apparatus of Making Business Excel PAC only and no other entity. As stated in earlier Miscellaneous reports, the commission for consultant includes all costs of fundraising, including all administrative costs including utilities, phone, fax, rent, etc... Therefore, those administrative fees will not be reflected directly on a report, as it is part of the consultants fee.
