This is an amendment to the 24-hour notice filed by fax on December 23, 2011. A paper copy of that filing was also submitted by courier and delivered on December 29, 2011. The notice was filed by fax and paper because the committee had

not yet registered and so could not file electronically. The filing should be amended as follows: (1) The expenditures were related to the Iowa primary, so "IA" should be added as the state under "Office Sought" for each itemized expenditure; (2) Production costs were not available at the time the initial report was filed, so the following information should be added as an itemized expenditure:
