This ETEXT is in response to the above referenced letter.  
The paragraphs below are numbered to correspond with the paragraphs  
in the FEC letter.

1. "Dinner Catering Event" expenditure on Schedule B was just that, catering for a dinner fundraiser for the Senate Majority Fund PAC. Our Senate Majority Fund PAC Fundraising is outsourced and done by Steven H. Gordon and Assoc. The expenditure was made to them to pay for the event catering. The letter asked if certain expenditures were made on behalf of specifically identified candidate. They were not. All fundraising expenses including catering were paid for raising funds for the Senate Majority Fund. No fundraising expenses benefited any candidate or other political committee, unless we later made a monetary contribution to them. These contributions are duly reported o line 23 of our reports.

2. The letter asked if a number of expenditures reported were for public communications or voter drive activity. They were not. These expenditures were all directly related to fundraising activites for the benefit of the Senate Majority Fund. No activity contained express advocacy for any candidate or other political committee.
