The diagram shows a double-stranded DNA molecule. The top strand is a straight horizontal line with 10 vertical tick marks representing base pairs. The bottom strand is also horizontal but contains a loop. It starts with 4 tick marks, then has a loop that extends downwards and back to the right, adding 4 more tick marks, and finally ends with 2 tick marks. The total length of the bottom strand is 10 base pairs, matching the top strand.

A diagram of a rectangular frame. It consists of a horizontal beam at the top and a horizontal beam at the bottom, connected by vertical supports. The top beam has several small rectangular protrusions along its length. The bottom beam has several small rectangular protrusions along its length. The vertical supports are represented by short vertical lines connecting the top and bottom beams.
