Respected Members of the Committee;

I find myself in the awkward position of having Kellipac placed before you for a second time.

Though my several discussions with Mourine (My FEC contact) I think I finally understand the problem with the Independent Expenditure made to Rain Makers on September 10, 2016.

This expenditure was a payment for fund raising commissions owed to Rain Makers and was paid after the primary date of 8/16/16. Specifically, it was for commissions paid for funds that were collected on August 5, 2016 and reported in the Report dated 8/1/16-8/31/16. I again have to defer to my misunderstanding of the 48 hour reporting requirements which you so graciously pardoned me for in a previous review.

I am available by telephone (928-444-7589) if you wish to speak with me directly on this matter. I can assure you that I had absolutely no intention to mislead or hide any expenditure or receipt but rather it was a misunderstanding of FEC reporting requirements. As I stated to the committee before, we are a new PAC and I am new to the definitions and requirements of the FEC. I have, however, been educating myself on the FEC website so as to not make these kinds of mistakes in the future.

I humbly ask for your leniency and understanding in this matter with the anticipation that future reportings for the upcoming election cycle will be flawless.

With gratitude;

Douglas McKee
