This is in reference to Year End/Termination Report just filed by the committee and covering through December 31, 2005. The committee has made a good faith effort to resolve the debts that have been carried for many years. Denson Consulting apparently no longer exists and IKON no longer shows any amount owed by the committee, therefore, we have removed the debt from the report. It is the committee's intention by filing this report, to close the federal committee because we will no longer make contributions to federal candidates or conduct activity in connection with a federal election that would require us to file with the FEC. Therefore, we have marked the year end report as a Termination Report. Please advise if there is anything additional we need to do.
