Dear Federal Election Commission:

The Elk & Elk PAC (C00540674) has been in contact with Senior Campaign Finance Analyst Paul Stoetzer about our recently-filed Amended reports for the 2012 Year-End and 2013 First-Half.

After speaking with Mr. Stoetzer, it was determined that all of our previously-filed original and amended filings erroneously included activity from both our Federal checking account and our separate State & Local checking account. Mr. Stoetzer indicated that the reports filed with the FEC should only reflect Federal activity. Any State & Local activity would have to be reported separately for any required filing with the State of Ohio.

All State and Local activity will be removed and only Federal activity will be shown on the newly amended 2012 Year-End and 2013 First-Half reports, which will be filed electronically as soon as possible.

We apologize for this inconvenience and will do our best to stay in complete compliance with all FEC reporting requirements.
