RE: ID number C00162818, FEC-156121

To Whom It May Concern:

The above referenced FEC file was a 48 hour notice that we had failed to file timely. A notice sent to us on 11/17/04 brought this matter to our attention and prompted us to send the required 48 hour notice. This matter was a misinterpretation on our part of the laws regarding 48 hour notices.

Please note that the above referenced FEC file has the incorrect aggregate total of independent expenditures. This is a software problem, and has been brought to the software company's attention. However, for the purpose of sending this report in a timely manner, it was sent with the incorrect total. The correct aggregate total on independent expenditures should be \$71,732.23.

Also, please note that reported in the above referenced FEC file, Robert A. Brady is also listed on the form, even though we have not reached the \$10,000.00 reporting threshold. Because one check was cut for both candidates to this particular vendor, this federal candidate is also showing on the 48 hour notice. It is over-reporting on our parts, however, we are unable to override the software system.
