

On May 15, the New York State Laborers' PAC filed two amended reports. The first covered 7/1/07 to 12/31/07 and was filed in response to a letter from the FEC pointing out an error in the original filing. The report was amended to address the error. The report of a specific allocated activity expense was not properly entered inot the software (the expenses were not allocated). This was corrected. The PAC also filed an amnded report for the first quarter of 2008. This was done because of having to amend the previous report. No changes were made in the first quarter filing.
