Update on fraudulent charges:

To date, all charges have been credited back to our Nevada State Bank (NSB) PAC account, except two. Charges made to Capitol One in the amounts of \$861.03 and \$226.72 were not and will not be credited back by Nevada State Bank due to the fact that they are considered "corporate to corporate" payments. We were informed that business accounts (including non-profit accounts) are not covered for fraudulent activity such as personal customer accounts.

We are actively in the process of adding a Positive Pay Service (PPS) program to our account, adding a layer of security to the account. With this program in place, only payments listed in the NSB system will be paid out once an authorized account user logs into the account and enters all check information. No other fraudulent checks, ACH changes, etc. would be paid. We are also considering closing the account and opening a new one with the PPS, however that decision is awaiting approval by CEO Karen Haller.

No additional fraudulent charges have been made on the account after having added the ACH block.
