This is a response to the notice dated 12/30/2004 regarding the 30-Post General Report, which indicates that we may have failed to file a timely 24 hour independent expenditure report. The expenditure referenced was to Powers Fingerhut in the amount of \$5,000 was for a TV ad. The ad was originally publicly disseminated on 10/27/2004, and a 24 hour report was filed on 10/27/2004 for this expenditure, Filing ID FEC-148324. The issue arises because the cash disbursement for this ad was on 10/21/2004 and this is the date listed on Schedule E.

After explaining the situation to William Wiquist in the Reports Analysis Division, he advised us that we did in fact file all forms correctly, and suggested we file a Miscellaneous Electronic Submission to acknowledge the notice we received, but no action is needed on our part.
