

This document is being filed in response to the October 11, 2006 letter from the Federal Election Commission (FEC) concerning the amendment filed by the Hewlett Company PAC (HP PAC) to its August Monthly Report (7/1/06-7/31/06). Specifically, the letter from the FEC asks for clarification of the additional \$10,063.40 in receipts that were included in the amended report.

Each pay period donations made to the HP PAC are recorded into a database from which the HP PAC prepares and files its reports with the FEC. As a result of a technical problem in the transmission and recording of certain payroll receipts during the month of July, these contributions were not included in the original August Monthly Report filed by the HP PAC. As soon as it was discovered that these contributions were not included on the report and the issues with the recording of these receipts were resolved, the HP PAC generated an amended report that included these receipts. Every additional receipt that required itemization has been itemized on the HP PAC s amended report. Please be assured that it is the intention of the HP PAC to comply with the requirement of full disclosure, and the amendment to the August 2006 report was filed to ensure that all of the HP PAC s activities were fully and properly disclosed.
