

June 16, 2010

Mr. Christopher J. Morse  
Senior Campaign Finance Analyst  
Reports Analysis Division  
Federal Election Commission  
999 E Street NW  
Washington, DC 20463

Dear Mr. Morse:

The Illinois Republican Party is in receipt of your Request for Additional Information dated May 19, 2010 concerning our 2010 February, March and April monthly FEC reports.

Through this response, we can as you requested confirm that no employees spent more than 25% of their time during those months on Federal Election Activity, or on activities in connection with a Federal election. Thus, the salary and salary related disbursements are correctly reported on H4.

However, please note that there is one employee whose salary payment is listed on Schedule B for line 30b of our May monthly report. Also, the June monthly report to be filed later this month will include payroll for additional employees on Schedule B for line 30b.

In subsequent months, salary and salary-related payments for any employees who spend more than 25% of their time during those months on Federal Election Activity, or on activities in connection with a Federal election, will be disclosed on Schedule B for line 30b. In these circumstances, all applicable salary and salary-related expenditures are made with federal funds only.

Sincerely:

Dave Syverson, Treasurer  
Illinois Republican Party
