

This filing is in response to the Commission's request for additional information dated March 2, 2011.

The year-to-date totals on the Committee's year-end report are correct. Amendments to earlier reports have corrected what appeared to be an error in the cumulative totals.

The transfers shown on Schedule H3 of the year-end report include transfers for activity in other reporting periods, but within the permissible 70 day time period. Beginning in the calendar month of July 2010 (the M8 report) the Committee made a number of allocated disbursements that were not reimbursed within the same reporting period, but that were reimbursed within the permissible 70 day time period. Accordingly, beginning in the calendar month of August 2010 (the M9 report), and continuing in subsequent months, transfers for reimbursement from the non-federal account include amounts related to allocated disbursements made in other reporting periods, but within the permissible 70 day time period.

Thank you.

Ron Bass
Treasurer, Orange County Republican Executive Committee
