

On Friday April 18, 2008 I filed an FEC 9 for American Leadership Project. Question 7 asks whether distributions are maded exclusively from donations to a segregated account. I answered "Yes" to this question but the html confirmation copy displayed a "No" answer to this question.

I prepared an amendment thinking I had a typographical error and carefully typed "Yes" to this question. Again when the html version came up during the confirmation process the answer displayed as "No". I just checked the pdf version that is available online and the pdf version is correct.

Also on the html version page one of the donations schedule does not total correctly. In the pdf version the totals are accurate.
