In response to the FECs inquiry dated December 16th, listed below is our response to item 1.

Item 1

In February, the Tulare County Central Committee hosted an annual fundraising event. At the event, an agent of the committee received a contribution for \$10,000 from the Devin Nunes Campaign.

Shortly thereafter, the committee held elections for new officers and the newly elected treasurer was not made aware of the contribution. It was not until May, the committee was cognizant of the contribution. Upon receiving the funds, the committee deposited the funds and amended the February and proceeding reports to reflect the contribution in the period in which it was received and to roll cash totals forward.

The committee was not attempting to mislead or hide information from the public and apologizes for the oversight. The committee has since employed the services of professional treasurers to ensure discrepancies like this do not happen again.

Sincerely,

Matthew Fowler
