Response to RFAI of May 24, 2013

RE: Amended 30 Day Year End Report (11/27/2012-12/31/12)

This document is being submitted to answer the questions contained in the above referenced letter from the FEC to this Committee, as follows:

Reason that the amended report dated April 25, 2013 had a decrease in disbursements totaling \$27,900, compared to the original filing:

The decrease is due to one disbursement that now appears in Schedule D, as it was paid after the close of the period. The disbursement, initially reported as being issued on 12/14/12 was lost and had to be re-issued. The amended report removed the disbursement from Schedule B- (disbursements made) , and added it to Schedule D-(debts owed) as of the filing date. The re-issued payments for debts listed on Schedule D were made on January 28 & February 28, 2013, once it had been determined that the original checks had not cleared our bank account.
