To Whom It May Concern,

I am responding to a letter and phone call from the FEC asking for a reason why we amended our Statement of organization form. Apparently our previous Treasurer did not file the organization report correctly and did not have us listed as an affiliate committee to the California Democratic State Central Committee. I was informed by the FEC that we needed to determine if we were affiliated and to amend the F1 accordingly. That is what I did on 6/22/2012.

Please let me know if you have any further questions.
