Upon further review of the PAC's contribution records, we determined that the 51st unique contribution was received on November 11, 2014, and that as of November 24, 2014, the PAC has received and reported contributions from 54 different contributors. The November 7 date was noted on the original Form 1M due to a minor data entry error. An amended form, reflecting the correct date on which the PAC achieved multicandidate status, has been filed with the Commission.
