To whom it may concern,

This letter is in response to the request for additional information regarding O' Say Can You See PAC's (C00525220) Mid-Year report. Below please find additional information on the two requested items:

The transfer made to the non-federal account was used to pay for non-federal operating expenses that were permissible to be paid for from our non-federal account in accordance with Emily?s List v. FEC. None of the funds transferred to the non-federal account were used for any federal activities, including any independent expenditures or contributions to federal candidates.

The expenses described as "Communications Consulting", "Printing" and "Advertising" do not constitute an in-kind contribution or independent expenditure and have been correctly reported on the committee's Mid-Year report.

Please feel free to contact our campaign if you have any additional questions regarding these items.
