Amended March Monthly Report (2/1/07 - 2/28/07), ID #C00143230. This is in response to the question raised by the Federal Election Commission's notification dated 07/13/07 regarding the \$100,000 transfer to our non-federal account. This \$100,000 transfer is being made to correct an accounting error that took place in 2002. On 10/31/02, the committee received a \$100,000 non-federal loan that passed through its federal account. Although the committee immediately transferred the \$100,000 loan to a non-federal account on 11/05/02, due to an accounting error, a second \$100,000 transfer was made on 11/13/02. Although the committee intended to correct this error, due to an oversight, the error was not corrected. The committee has been carrying a \$100,000 adjustment ever since. Since the committee no longer intends to recoup the \$100,000 transfer, the committee is making this adjustment to adjust its reconciliations and cash on hand to properly reflect actual federal cash-on-hand.
