

To Whom It May Concern:

On September 24, 2008 the FEC sent a letter to the Schwan PAC highlighting a discrepancy in the July 2008 Quarterly Report. As a result of that letter, Schwan PAC has undertaken a comprehensive review and internal audit of the PAC. This audit has uncovered minor additional discrepancies, including itemized and unitemized receipts, that are being reconciled and corrected. We are currently taking steps to amend all affected reports. Due to the nature of FEC reports and the number of reports affected, this process is particularly time consuming. The aforementioned letter requested a response by October 27. We have communicated with the FEC several times throughout this process, and would like to use this form to officially inform the FEC that we are in the process of addressing the concern raised in the letter, and will complete all amended reports by October 31, 2008.
