Hillsborough County Republican Executive Committee
Committee ID: C00431643
6/23/2020

Response to FEC RFI dated May 19, 2020

Item #1 Most of the donor and vendor transactions that were reported without either addresses, employers and/or occupations were due to our batch uploaded names not matching to pre-existing donor & vendor records.

This submission better matches those pre-existing donor & vendor records. And it also includes the required data for nearly all of the new donors and vendors during the period.

The few remaining donors still missing employer and/or occupation information were all emailed and/or phoned multiple times with the required information mentioned in your RFI. We have also implemented a procedure to implement the required "best efforts" in this area.

Item #2 The two Jockin contributions that appeared to be in excess of limits were mistakenly both attributed to the wife, when one of them was made in the name of the husband, Ndji. This amended report shows the corrected donor name.

Item #3 The Vern Political Action Committee PAC contribution was mistakenly reported as a Federal contribution, when it was actually designated as a non-Federal contribution. The transfer of the contribution to a non-Federal account will appear on our July monthly report. This report now reflects the PAC's official name, Vote for Republicans Now PAC.
