

In response to your letter dated October 3 regarding the July Monthly Report please note that all expenditures itemized for "Fundraising Consultant Fees" were for the fundraising benefit of the committee and not for any specific candidates. Also, expenditures itemized for "Printing" was also for the fundraising benefit of the committee and not for any public communications or voter drive activity.

You have stated that the committee has limited administrative expenses. The committee is too small for an office so all administrative functions are paid through consultants as part of their monthly agreements. Payments were made to consultants during the periods you mentioned. The committee does not pay rent, utilities, phones, etc as it has not physical location.

Please contact me with any additional questions. Thank you.
