To whom it may concern:

In response to your notice dated 10/7/14 for the Amended June Monthly Report we filed amended reports by 11/12. This text serves as further explanation:

In response to your first item regarding memo entries, these entries were mistakenly coded with memo fields. Those codes have been removed on this amendment.

In response to your second item regarding 48 hour expenditures missing from Sch E, all four entries for DINAH BEVERLY and REGINIA WILSON were later determined to be erroneous and therefore were not reported on the July Monthly Schedule E.

Finally, as previously discussed with our FEC report analyst WSO identified a small number of canvassers that were not correctly reporting their hours. After completing an extensive review of those hours they were reported in FEC-943352. This amended monthly report now includes those hours for an increase of \$2,391.87 on line 24.

Thank-you
