Corbin:

In reference to your letter dated May 2, 2008, concerning the above mentioned report, a revised March Monthly Report has been submitted to reflect a corrected Schedule H2.

At the time the March Monthly Report was completed, the 50/50 ratio was in effect. The new ratio of 65/35 was not determined until 3-27-08 when the fundraising event was closed.

I can't explain how the revised ratio appeared on the March Monthly Report when it was not calculated until the April Monthly Report period, but an amendment has been filed.

Thanks,
