

This amendment is in response to an inquiry dated December 9, 2008. The July Quarterly Report (4/1/08 to 6/30/08) disclosed payments from AB Data for List Royalties on Schedule A, Line 17. The amount of this payment was determined by gross sales of \$100 per thousand names. This calculation is the usual and normal charge for lists provided by AB Data for direct mail usage. Accordingly, that is the amount we set to purchase our lists. I trust this response adequately addresses the concerns you raised in your correspondence. Please feel free to contact our committee should you require additional clarification.
