Re: RFAI dated September 16, 2008

Dear Mr. Whyrick,

I am in receipt of your Request For Additional Information dated September 16, 2008, regarding American Future Fund's Form 9 filed August 29, 2008. As you have noted, this filing was received by the FEC without certain supporting schedules. This omission was either the result of inadvertent error on the part of American Future Fund, or a technical malfunction involving one of the two fax machines involved in the transmission. We have been unable to determine which, if either, fax machine was at fault.

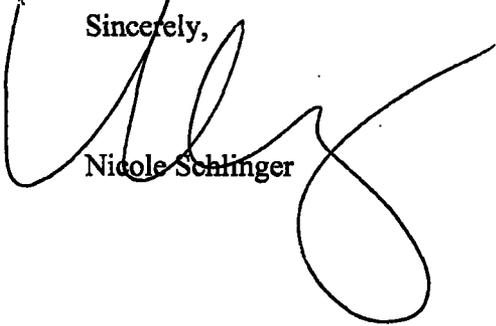

Immediately upon becoming aware that the FEC had posted an incomplete report on its website, we contacted Public Records, which confirmed that the FEC had only received the one page that was posted on the website. American Future Fund then re-faxed the complete report to the FEC on September 4 (see http://images.nictusa.com/cgi-bin/fecimg/?_28039824021+0 and attached).

As noted above, we believe this omission was either the result of inadvertent error on the part of American Future Fund, or a technical malfunction involving one of the two fax machines involved in the transmission. Upon learning of the error, American Future Fund took immediate steps to correct the filing.

I would like to note that on two instances prior to August 29, American Future Fund filed complete reports with the FEC. I hope this demonstrates to your satisfaction that this was a one-time occurrence. Additionally, American Future Fund has since implemented internal policies to ensure that the FEC receives all pages of its filed reports.

If you have any further questions about this matter, please do not hesitate to contact me.

Sincerely,

Nicole Schlinger
